BRAC-

This letter is in reference to the closure or realignment of Oceana. We are currently stationed here; we know first hand how unsafe it is for the jets and the civilians. We agree fully with your decision about moving the base, it's clearly the best thing for the navy and our country. This city shuns the military, we are outcasts. The city decided not to comply with you, and we ask that you please follow out your decision come March 31st. Virginia beach does not deserve to have this base any longer, they do not respect the military nor your demands. We ask that you PLEASE move these jets, before something awful happens. Jacksonville is military friendly and has more than enough room for the jets at Cecil. Yes there were protests against it, but that will be anywhere. Virginia beach is not a welcoming place for the military or their families, and the issue with Oceana, clearly they are not compiling with you. Please follow up with your demands, move the jets!!

Thank you for your time and understanding-

A handwritten signature in black ink that reads "A. Medlock". The signature is written in a cursive, flowing style.
